Echo

Media Center Extender
Preliminary

THE ULTIMATE MEDIA CENTER COMPANION

Extend your Windows Media Center experience to any TV in the home

WHOLE-HOME SERVICES*

Watch live and recorded TV shows on any TV set

All DVR recordings are available on any TV

Pause a show in one room and continue watching in another

ELIMINATE COSTLY MONTHLY FEES

No set-top box lease fees

No DVR tax

The **Ceton Echo** is a next-generation Media Center Extender and the first to support Internet video services and Internet browsing, along with live and recorded high-definition TV services and access to your personal digital media libraries.

Ceton Echo allows you to stream media from a Windows® 7-based PC to both high-definition and standard-definition TV sets over your home network.

Together with a Ceton InfiniTV digital cable tuner, Ceton Echo brings TV, DVR and digital entertainment services to any room in your home, while eliminating cable set-top boxes and their accompanying lease fees and DVR taxes.

Ceton Echo is compatible with all Windows 7 PCs with Windows Media Center.

- Watch live and recorded high-definition TV
- Access Internet media services
- Browse Internet sites
- Access your personal digital photo, music and video libraries
- Works with any Windows 7 PC with Windows Media Center

* TV features require a TV tuner on your Windows Media Center PC
